

Hello, I am Ved Patil.

Gen-AI E|

I'm a computer engineering student at Madhuben and Bhanubhai Patel Institute of Technology, pursuing a BTech (September 2022 - July 2026). I'm currently proficient in Python, Java, and C/C++, with experience in cloud platforms, databases, Git, and Docker. I have a strong interest in Generative AI, backend development, and web technologies, and I'm passionate about building scalable, AI-driven systems.
